

ENERGIZER LED Lantern Torch

Description

This robust and durable LED Lantern from Energizer is designed to last 15 years with the same reliably powerful reflector and lens and consistent impact resistance. It has been made to float on water and has an anti-roll detail with an easy-to-grip handle and a large push button switch. It is weatherproof rated to IPX4 (not submersible), and has an impressive beam distance of 100 metres.

Weather Resistant
